[VIVABOX Father's Day Giveaway](#)

What's a [Vivabox](#)? In short, it is the perfect gift for Father's Day. No more tacky ties, handmade frames, golf tees or novelty boxer shorts. A Vivabox is a fabulous new gift giving process that allows you to choose the theme but allows the receiver to choose the gift. This allows for a completely customized gift that anyone will love to receive. No more returns, exchanges or re-gifting.

We were able to try out the [Bar-b-que Vivabox](#). First we chose the theme, [Bar-b-que](#). Then in the mail came 3 full size bottles of tasty spice blends from Urban Accents that we tried with that night's dinner. Along with the spices came a gift card to redeem for more goodies. With the gift card in hand we went to the Vivabox site and realized we had to choose from about 8 different packages from Omaha Steaks. We picked the combo of filets and burgers but the choices varied from chicken to pork to New York strips to an even BIGGER spice blend kit from Urban Accents. Omaha Steaks came in about a week; we are set for Memorial Day.

There is nothing more exciting than getting someone the perfect gift. Vivabox lets you do that with categories such as Wine, Spa Massage, Gourmet to Your Door and more. You pick the theme they pick the gift. It's so much better than a gift card but no more worrying about the right fit, flavor or color.
