

## found...the perfect holiday gift...vivabox

“Too fabulous! The best part is the all-inclusive boxes range from \$50 to \$160! Perfect for this penny-pinching holiday season.”

An absolutely perfect gift for the finicky relative/friend in your life. Each **Vivabox** gift box contains two gifts in one: Open the box for an immediate ‘taste’ of your experience—in a number of fun and exciting categories—then redeem the enclosed gift card for a full experience of your choosing.

You can choose between...

*Tea Time* - Experience the soothing gift of tea with a sampling of tea gifts.

*Gourmet to Your Door* - A gift of dinner for two delivered right to your door

*Spa Beauty* - Share the gift of luxury with a manicure and pedicure

*Spa Massage* - The gift of a massage or a facial

*Fragrance* - Give the perfect gift of fragrance when you don't know which one to choose

*Coffee Talk* - Create the atmosphere of the cafe in your own home.

*Wine* - Six bottles of wine delivered to you for your personal wine tasting experience.

*Bar-B-Que* - Everything needed to become the Grill Master

One we're loving right now is either of the Spa boxes.

Within each spa themed **Vivabox**, your gift recipient will receive a selection of natural bath and body products to begin their relaxation at home, and then can choose to have a massage, facial or manicure and pedicure at the location of his or her choice using the enclosed gift card. The entire experience, even the tip, is included!

The best, however, is that the gift card is redeemable at one of over 4,000 day spas in the world- including some of the most exclusive spas in the US. Whereas a normal massage or facial might cost you well over \$200 at those spas, the **Vivabox** spa card allows you to receive the same exact service for less, all because of its amazing partnership with SpaFinder!
